Certificates:

✓ Java8 Oracle Programmer Certified Associate

✓ Decipher Programming Certification

✓ Business Acumen Training Series PwC 2015

✓ Soft Skills Course 2015

✓ Chamber of Engineers in the Investment Design

✓ Completed Course Of AutoCad Civil 3D

I am Java 8 Oracle Certified Programmer. I am serious, reasonable and reliable person with responsible attitude to work and hunger to learn and grow professionally. During the entire term of my services to all previous organizations, my knowledge, working abilities and techniques have always won the appreciation of my managers.

I am working as a junior Java Developer at Scale Focus. In my current project I am using Spring Boot, Docker Containers, Jenkins, GIT, SQL, Eclipse, Intellij, Gradle, Maven, Scrum methodology and JIRA. The project belongs to our US client, a huge health insurance company.

I have worked as a Survey Programmer at Focus Vision.

I have graduated from the Technological School Electronic Systems associated with Technical University of Sofia, from where I have a diploma for a specialist in electronic computing systems.

My vision is that playing as a team player is the only way to play.

Experience:

11.2017-Present

junior Java Developer at *Scale Focus*

• *Main activities and responsibilities*

As a junior Java Developer I am working with Spring Boot, Docker Containers, Jenkins, GIT, SQL, Eclipse, Intellij, Gradle, Maven, and JIRA. I have every day Scrum meeting with our US client so we are getting the active tasks aligned for the active sprint and backlog stories groomed for the future sprints.

11.2015-12.2016

Survey Programmer at *Focus Vision*

• *Main activities and responsibilities*

As a Survey Programmer, I am responsible for programming online surveys, working as part of a client centric team, delivering services to leading market research firms. My job responsibilities include programming and troubleshooting surveys to verify they function according to specifications and standards, following formalized quality assurance and project processes, and maintaining an exceptionally high level of quality for client deliverables. My position involves daily interaction and coordination with internal departments and requires excellent communication skills.
