

## LETTER OF RECOMMENDATION

As a manager of „Kristonengineering“ Ltd. I recommend Asen Bochukov, who had the position of surveyor and designer in the company from August 2009 to December 2010, and I guarantee for his qualities and capabilities.

Some of his duties included:

- organizing and managing a survey crew for field survey measurements; working with various survey instruments such as total stations, level, GPS, etc.;
- working with different types of software products of Leica, Topcon, etc., for processing raw data from field measurements and subsequent adjustment to TPLAN, designing and constructing 3D models before and after construction activities with the software products Land Desktop and Civil Design;
- designing and constructing cross sections;
- preparing data for tracing buildings and structures;
- drawing topographic maps.

He was responsible for key strategic projects such as:

- "Measuring of research nuclear reactor, development of three-dimensional model and preparing final drawings for construction of a new wing", - he made the survey measurements, drawing of the 3D model and preparing final drawings,
- "Measuring and preparing final drawings of existing facilities in the Maritsa Iztok 2 TPP for construction of chemical installations of block units 5 and 6", he made survey measurements, drawing a 3D model of the site and preparing final drawings. He took part in geometric leveling of benchmarks of the area of facilities;
- "Measuring and building 3D models and preparing final drawings of dams - Ovcharitsa, Rozov kladenets, Ivaylovgrad and others for the purpose of preparing final drawings of the current situation of the dams, " - survey measurements, drawing 3D models and preparing final drawings;
- "Measuring of bridge over heated channel Kozloduy NPP for repairing the equipment" measuring, drawing 3D model and preparing final drawings;
- "Measuring the route of transmission line in Belene NPP for design purposes";
- "For project EUROPEAID/124484/D/SV/BG - designing new regional landfills and closure or restructuring of existing ones in the areas of Samokov, Lukovit, Teteven, Cherven bryag, Jablanica, Roman, Kostenets, Opan, Bratya Daskalovi, Kotel and others" on area more than 200 [ha] as a leader of a team he has organized and carried out detailed surveying, data processing and creating of topographic maps of the territories.

He organized and executed communication with the relevant government and municipal authorities and other institutions involved in the process of work and has done excellent with all the above tasks and many of the difficulties and complex situations that occurred and required emergency response solutions. In such situations he had taken quick and reliable decisions, subsequently proven to be of great benefit to the project. He worked overtime to complete tasks before deadline. In the course of work he aims at professionalism and he never compromises the quality of the product of his work, even when required overtime work for achieving the goal. He stands for the reputation of the company he works with.

As an employee he is doing excellent work, he is active and capable of taking fast independent decisions. Excellent organize of activities of the team and project-related communication with municipalities and other public authorities. You can count on him to take individual responsibility of different projects.

I believe that Mr. Asen Bochukov can effectively and properly execute his duties within his professional competence. I recommend him unconditionally as a conscientious and loyal employee and I think that you will be more than pleased with the quality of his work.

November ,2010

Sincerely ,

Manager: .....
